

The City of Lake Stevens will have a temporary road closure to all traffic on Lundeen Parkway at the Vernon Road intersection in order to perform construction of a new roundabout improvement. **The closure is expected to be from March 22, 2010 – April 30, 2010**, however the reopening date is largely dependent on favorable weather conditions allowing construction activities throughout the closure period and no major occurrence of unexpected conditions in the site preparation. This closure is necessary to complete the site preparation and full construction of this intersection

Closure date signs will be posted in advance of the closure date and updated if necessary due to any changes in the closure period dates.

For more information about the Lundeen Parkway roundabout project, please contact Arnie Clark, Project Manager, during normal business hours at 425-212-3313 or aclark@ci.lake-stevens.wa.us
